Angel Essences Information

The Angel Essences are particularly for those who feel an affinity with the angelic realm. Each of the flower essences in this set of 20, is specifically attuned to the vibrational energy of that specific angel. You can take them when in need of inspiration or help from a particular angel or when working on deep-rooted states over a period of time.

Angel of Abundance

The Angel of Abundance essence helps release any blocks preventing a person from realising they are a part of Divine Energy. As we open ourselves up to this energy, we move away from a poverty consciousness and allow abundance in all its forms into our lives, sometimes in unexpected ways.

Angel of Beauty

We are all beautiful beings, though some folk do not see their own inner beauty. This essence is for them. The Angel of Beauty brings the ability to see the beauty in all things, all beings and all life forms including the beauty within ourselves.

Angel of Compassion

The Angel of Compassion essence helps us, when we are ready, to bring true compassion into our lives. Sympathy comes from the Solar Plexus on an emotional level but compassion, which is impersonal and unconditional, comes from the soul. Bring compassion into your life and as your soul, heart and crown link together, feel true Unconditional Love.

Angel of Determination

So often we wander from our intended path in life. This essence brings the determination to stay on the path we choose for ourselves, and to be completely us instead of an image that isn't true to who we really are.

Angel of Wisdom

The Angel of Wisdom helps us to access Divine Wisdom and combined with the Angel of Truth, it gives us the wisdom to know when to speak the truth and when it's better not to!

How to use:

Angel essences can be used in two ways; if you feel in the need of inspiration , take four drops and call on the help of the angel you require—repeat as vncecessary. Alternatively, take four drops, four times a day, again asking for the Angel to be activated with each dose, until you feel a shift in consciousness.

For best results take straight from the bottle without dilatation.

Preferably take 20 minutes away from food and drink.

You can take these essences separately or mix 2-3 together, although it is often more powerful to work with each angel separately.
