

Archangel & Ascended Masters Essences

Information

Both Archangels and Ascended Masters belong to the Spiritual Hierarchy of Earth. They have been guiding and directing humanities evolution since the beginning of life here. These wonderful beings of light exist in many dimensions, or layers of energy, that surround the Earth and which make up the universe to which we belong. The Archangels and Ascended Masters are part of the 'invisible' world which makes the universe work.

Archangels are enormous beings of light from the great Central Sun, responsible for the process of stepping down the energy of creation from Source into form. Each of the many Archangels holds a strand of the energy of creation helping to direct its evolution. They are dedicated to helping humanity to move into the light and are always available to help us when requested to do so. Ascended Masters are highly evolved beings, many of whom have incarnated on Earth over the ages bringing knowledge, wisdom and light to help show us the way forward. They are our elder brothers and sisters and work ceaselessly with love and devotion to help us evolve and grow. As the vibrations of Earth and humanity are now rising we are more able to connect with these wonderful Archangels and Ascended Masters and they with us. However, while we are in incarnation on Earth we have the gift of freewill and therefore need to request the help of the Spiritual Hierarchy if you wish to receive their assistance. Each of the Archangel and Ascended Masters essences in this set is aligned with the energy of a particular Archangel or Ascended Master. The essences will help you to connect more strongly with your chosen Being of Light to receive guidance and help for your own journey.

Archangel Gabriel

Archangel Gabriel works to create more harmony, beauty and purity on Earth. He helps to develop intuition and to find a person's true path when called upon. He is also the Angel of Childbirth so ask for his blessing for all newborn souls. Invoke his help also for clarity, purity, order and discipline.

Archangel Michael

Archangel Michael is the one to invoke for help with courage, strength and protection. He carries the flaming blue Sword of Truth and, if called upon, he will use it to cut away old ties, cords or negative energies which are preventing you from following the right path. Call on his help if you feel in need of protection of any kind, or if you need to develop intuition, will-power, strength or to focus your thoughts.

Archangel Raphael

Call on Archangel Raphael for his help with healing, vision and creativity. He will help to dissolve blockages which are causing illness and to develop inner knowing through development of the Brow Chakra.

Archangel Uriel

Archangel Uriel and his Angels of Peace should be invoked in any situation where Divine Peace is needed, dissolving fear and anchoring this vibration of peace into your inner being. When asked he will also help to develop insight, clarity and vision.

Babaji

Babaji is a great avatar known as the Yogi Christ. Throughout the many centuries since his ascension he has continued to manifest in a human body and for this he is known as the deathless avatar. Working from his retreat in the Himalaya's, he provides an example to humanity of the vast potential we have. To invoke his name with reverence, it is said, will attract a blessing from him.

Divine Mother

It is only recently that the energy of the Divine Feminine has been re-established. The Divine Mother (known as Mary in the West and Quan Yin in the East) personifies this nurturing and compassionate energy. Use this essence to call on her to connect with and balance your own feminine energy. Until the Divine Feminine and Divine Masculine energies are in balance within us and within the Earth, Peace and Harmony cannot be restored to us or on Earth.

Kuthumi

Kuthumi is the Master of the Second Ray of Divine Love and Wisdom. He has previously been Pythagoras, John the Beloved, Shah Jahan (builder of the Taj Mahal) and St. Francis of Assisi and is currently World Teacher working to bring illumination through education. Invoke Kuthumi to receive wisdom, higher knowledge and spiritual inspiration.

Maitreya

Lord Maitreya is the Planetary Christ and head of the Spiritual Hierarchy and the Great White Brotherhood. He is the teacher of many of the Ascended Masters and overshadowed Jesus during the last few years of his life, thus allowing the Christ Consciousness to be seeded on the Earth Plane.

Sananda

Sananda is probably the most well known and loved of the Ascended Masters. He has lived on Earth as Adam, Enoch, Jeshua, Joshua, Elija, Joseph of Egypt and as Jesus Christ. He is Master of the sixth ray of Idealism and Devotion and is said to be one of the twelve sons and daughters of God. He was and is the way for our own spiritual journey and ascension as he personifies Godliness in human form showing us our own potential.

Violet Flame

The Violet Flame of Transmutation is a powerful ray of energy which is available to us all as a tool for purification and transmutation of negative energies. The Ascended Master St. Germain brought the gift of the Violet Flame to humanity after the Harmonic Convergence in 1987. It was a dispensation from Source to help speed up our awakening. Call on the Violet Flame to purify negative thoughts and feelings or hold a situation in the Violet Flame asking for it to be resolved for the highest good. Taking the essence as you do will help to strengthen your connection.

How to use:

Archangel and Ascended Masters essences can be taken in two ways: If you feel in need of inspiration, take four drops on the tongue and call on the help of your chosen Archangel or Ascended Master-repeat as necessary. Alternatively, take four drops four times a day again asking for help with each dose until you feel a shift in consciousness.

For best results, take the essences directly from the bottle without dilution and take away from food and drink.
