

Rose Collection Essences Information

The Rose Collection Essences have been specially prepared to help you to balance the heart chakra.

Through the ages roses have been associated with the heart and have traditionally been given as a symbol of love. As essences, Roses offer us the gift of their perfection in the form of gentle healing energies which will help us all to awaken to the unconditional love deep within our hearts, and remind us of our divinity and connection to the whole.

There are sixteen Rose Essences and four Rose combinations in the set. Each of the roses works through the heart chakra to bring balance and harmony to specific states or patterns.
